

Myers-Briggs Type Indicator (MBTI)® College Package

(For high school sophomores and older)

- ❖ Is your child confused about choosing a college major?
- ❖ Does he/she have no idea which career paths to consider?
- ❖ Does he/she struggle with self-awareness?

The MBTI® tool is the beginning point of self-exploration. Conducting a Myers-Briggs® assessment is a valuable way to begin a conversation with a student about possible careers, majors and college campuses. Whether a student has no idea what he or she wants to do later in life or whether they have very specific ideas, an MBTI® assessment can help provide direction and open the door to self-awareness. Let their innate personality type help guide them. It's a great time for them to begin the process of self-exploration!

- ❖ Roemer Educational Consulting offers high school juniors and seniors a consultative interpretation session that includes the **MBTI® College Edition Interpretive Report** and an examination of “**Do What You Are**” career recommendations based on their personality type. Students take a 20-minute on-line assessment and spend 60 minutes with Sally Roemer, Certified MBTI® Practitioner, receiving their interpreted results in a personalized one-to-one session dedicated to helping individual students understand their natural strengths and preferences.

Myers-Briggs Type Indicator® College Package: \$199

The *Myers-Briggs Type Indicator*® assessment tool has been used for more than 60 years with students around the world to help them choose classes, majors, and careers that match their preferences and personality.
